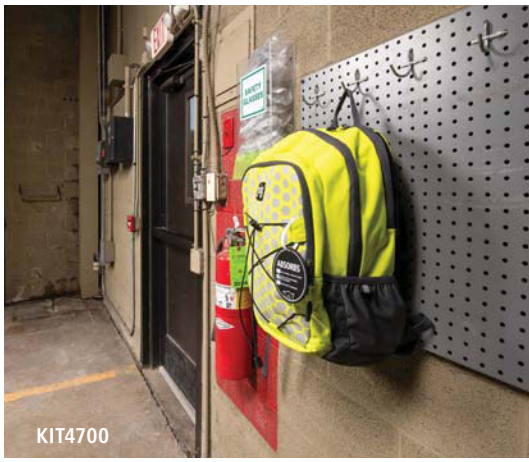
Check out the latest in **Cleaner, Safer, Better** ways to work.

LEADER OF THE PACK FOR GRAB-AND-GO RESPONSE

PIG Backpack Spill Kits keep your hands free so you can carry other supplies, open doors and more. Details on page N2.



PIG BACKPACK SPILL KITS

Keep both hands free on the way to a spill, even in difficult locations.

Clean up spills in hard-to-access locations in mining, forestry and more. High-visibility backpack with reflective dots is easy to find, and the rugged construction won't tear so you can refill and reuse it. Multiple storage pockets allow you to add extra spill response products or safety items, and the included flashlight has five settings to help keep you visible and safe: high, low, solid red, standard flash and alternating flash.

EXCLUSIVE pig PRODUCT

PIG® Spill Kit in Backpack					
Item #	Pallet Qty.	1-2	3-5	6+	
KIT2700 • Absorbs up to 4.4 gal.	**36**	**$199**	**$195**	**$189**	*
KIT2700 Contents • 3 Socks • 20 Mat Pads • 1 Epoxy Putty • 1 Collapsible Container • 5 Disposal Bags • 1 Flashlight 1 Pair of Goggles • 1 Pair of Gloves • 1 Hi-Viz Backpack

ATTENTION: Independent testing indicates that PIG HazMat products are compatible with and absorb most acids and bases. Due to variables and conditions of applications beyond our control, New Pig cannot guarantee that this product will absorb to your satisfaction. To ensure effectiveness and your safety, we recommend that you conduct compatibility and absorption testing of your chemicals with PIG HazMat products prior to purchase. To ensure safety when using PPE, please consult chemical compatibility guide(s) to determine if PPE is compatible with your chemicals and fluids, or ensure compatibility with chemical manufacturer. If you have any questions or need samples to test, please call us toll free at 1-800-HOT-HOGS.

PIG HAZMAT TRUCK KITS

Space-saving spill response is rugged and road-ready.

Designed just for trucks! Packed with PIG Absorbents and essential spill supplies to clean up acids, bases, corrosives, chemicals and unknown liquids.

Hi-viz green bags are easy to find and they increase driver visibility during spill response. Bucket is ideal for placement in truck beds and large external compartments, or mount it to truck's exterior with a bracket (BKT1213; sold separately at newpig.com). More kit styles available at newpig.com.

HELPS YOU COMPLY with 40 CFR 263.30(a) and 40 CFR 263.31

PIG OVERPACK CLOSURE TOOL

Closing PIG Overpacks is now a one-person job.

Tool serves as a second pair of hands to hold the overpack drum in place while you screw on the lid. It's easy to use with no awkward struggling because it leverages your own standing body weight to keep the tool and overpack firmly in place. Works with 20- and 30-gallon PIG Overpack Salvage Drums (not for use with other brands).

EXCLUSIVE pig PRODUCT

PIG® Overpack Closure Tool

PAK7090

LITHIUM BATTERY FIRE RISKS ARE FOR REAL

PIG Obsidian products are the safer way to handle lithium batteries.

All lithium-ion batteries have the potential to enter thermal runaway — a dangerous chemical reaction that can produce smoke, fire, explosions and toxic off-gassing (see below for a closer look). We've developed a line of products to help you reduce risks, meet DOT regulations, and minimize the occurrence of secondary fires.

Trusted solutions to help with:

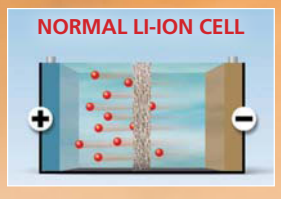
SHIPPING
DOT compliant solutions for transporting damaged or recalled batteries

STORAGE
Military-grade cases with fire resistant lining and more for on-site storage

RESPONSE
Bags and blankets help reduce risk of damage and secondary fires

Learn more on pages N5–N9!

A CLOSER LOOK AT THERMAL RUNAWAY



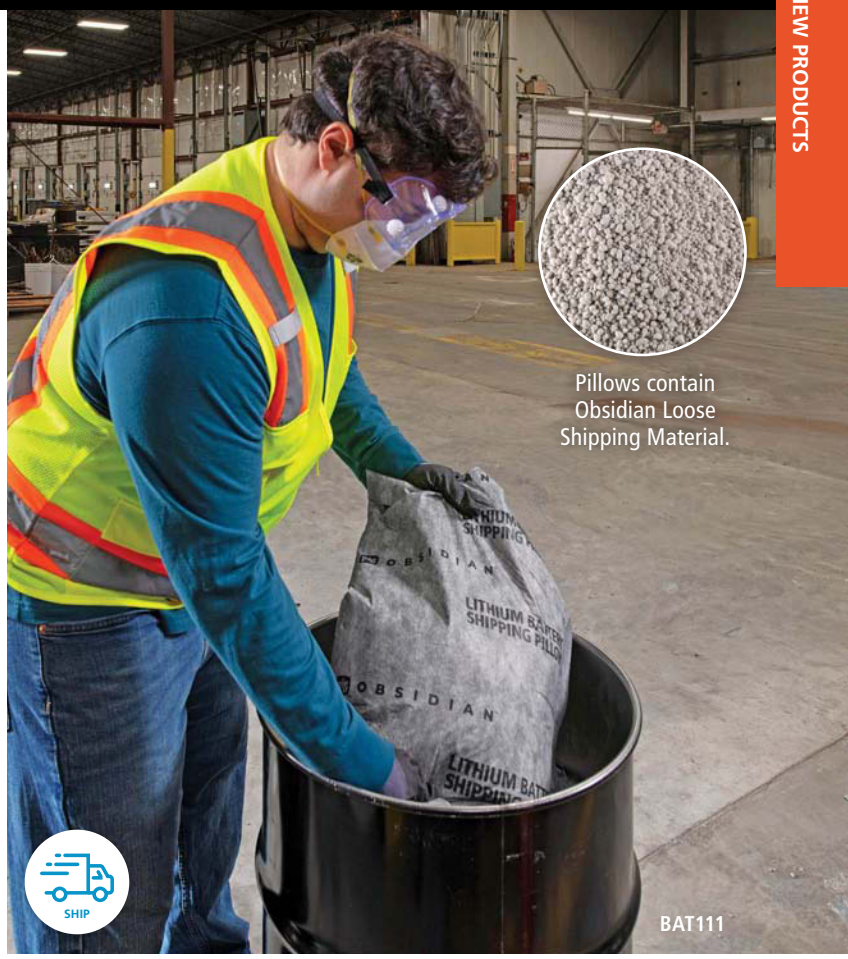
1 Lithium-ion cells consist of an anode (–), cathode (+), separator and electrolyte. Under normal conditions, the separator controls the flow of ions while separating the anode from the cathode.

2 When a cell is compromised — either by short circuit, physical damage, overuse or overcharging — this causes the anode and cathode to interact, generating heat and vapors through an exothermic reaction.

3 As the internal temperature rises and pressure builds, the separator and active materials break down. The cell enters a state of thermal runaway, leading to self-ignition, explosions and the release of harmful gases.

4 The severity and speed of lithium-ion battery fires depends on the stored potential energy of the charged cell. Higher levels can cause a chain reaction that spreads to a connected series or nearby batteries.

LI-ION BATTERIES ARE EVERYWHERE. BE PREPARED WITH PIG.



PIG OBSIDIAN LITHIUM BATTERY SHIPPING PILLOW

Pack, ship and store lithium-ion batteries using these pillows.

Environmentally friendly recycled material filler helps reduce risks for packing, shipping and storing lithium-ion batteries. Pillows are absorbent, cushioning, non-conductive and non-combustible, plus the durable polypropylene skin resists tearing and reduces dust. Can be reused if not compromised during shipping or storage. Intended for use as packing material for shipping and storing lithium-ion cells and batteries; do not use in response to active fires.

HELPS YOU COMPLY with 49 CFR 173.185 for packaging and shipping of lithium-ion cells and batteries that are DDR or need to be recycled

PIG™ Obsidian™ Lithium Battery Shipping Pillow

See warning statement on page N8.

SCAN THE CODE to discover our full range of PIG Obsidian products for shipping, storage and response.

PIG OBSIDIAN LOOSE SHIPPING MATERIAL

Environmentally friendly material reduces risks and helps meet DOT hazmat regulations.

When used as a component in a shipping system, it helps you comply with DOT HazMat Regulations for Damaged, Defective, or Recalled (DDR) batteries. Also for use in DOT compliant shipping of non-DDR batteries used in laptops and other personal electronic devices.

HELPS YOU COMPLY with regulation listed on page N7

Multiple battery cells can be shipped together in a single container when used as directed.

Material is absorbent, cushioning, non-conductive and non-combustible.

PIG™ Obsidian™ Lithium Battery Loose Shipping Material

See warning statement on page N8.

PIG OBSIDIAN LITHIUM BATTERY STORAGE CASES

Store or ship lithium batteries in these UN Rated cases with fire resistant lining to reduce risks.

Designed for shipping and storing high-value equipment that contains lithium-ion batteries and/or stand-alone batteries. High-strength aluminum cases lined with Fire Resistant Anti-Static (FRAS) materials help reduce the risk of propagation of fires. Meets US military specifications under MIL-STD-810 and are internationally recognized under UN Packaging Group X, the highest-rated designation for hazardous material packaging.

Casters and padlocks available at newpig.com.

WARNING: The Personal Protective Equipment (PPE) provided with this product were selected for their performance properties related to the most common battery types that would be appropriate for use with the product solutions New Pig provides. Due to the wide variety of available batteries, including watt hours, state of charge, chemistry, and also site-conditions and proximity to other combustible materials, New Pig Corp cannot guarantee that the selected PPE is the best choice or appropriate for every situation. Customers should always confirm that the provided PPE is suitable and sufficient for your specific intended purposes to ensure the safety of personnel. Additional PPE may be required depending on your circumstances.

PIG OBSIDIAN LITHIUM BATTERY FIRE BLANKET

Cover lithium battery fires to help reduce the risk of damage, spread and secondary fires.

Double-layer construction provides maximum heat resistance, allowing blanket to be placed directly onto a battery to help cool thermal runaway at the source. May help temporarily reduce the risk of collateral damage to the surrounding environment by partially insulating fires and reducing paths for flame, debris or heat to escape and spread. Packed in a backpack for quick deployment; one-time use only.

*⚠ **WARNING:** Cancer, Birth Defects and Reproductive Harm - www.P65Warnings.ca.gov

GENERAL WARNING STATEMENT Lithium-ion batteries can sometimes enter a state called "thermal runaway," which can sometimes lead to fire, explosion, and the release of toxic smoke and fumes. Lithium-ion battery fires are chemical reactions that can continue to burn even if deprived of oxygen. Call the Fire Department immediately in the event of any fire, whether or not you choose to use products from New Pig. Fires create great risk of injury or death and property damage. In the event of any fire, warn others to evacuate the premises, call the Fire Department and ensure that you have a clear path of escape. Do not take any unnecessary risks to combat a fire that has already started. While no fire suppression device can fully extinguish a lithium-ion battery fire until the chemical reaction has completed, the products offered by New Pig may help temporarily reduce the risk of damage by managing thermal runaway, partially insulating the fires, and potentially reducing the paths for flame or heat to escape and spread. These products are not guaranteed to prevent thermal runaway from starting or spreading beyond its immediate area. Burned or partially burned lithium-ion batteries have the potential to reignite and should be handled with extreme care by trained first responders or firefighters.

BAT311

BAT310

PIG OBSIDIAN BATTERY CLEANUP KIT

Properly handle damaged lithium-ion batteries following thermal runaway.

Provides baseline protection from the most common hazards encountered when approaching a damaged lithium-ion battery.

PIG™ Obsidian™ Lithium Battery Cleanup Kit	
Item #	1+
BAT330 • Absorbs up to 37 oz.	**$340** *
Contents • 4 Mat Pads • 1 Loose Absorbent • 1 Safety Goggle • 1 Face Shield & Headgear • 1 Pair Heat-Resistant Gloves 1 Pair Neoprene Gloves • 1 Coveralls • 1 Apron • 5 Disposal Bags • 4 Anti-Static Bags • 1 Broom & Dustpan	

*⚠ **WARNING:** Cancer, Birth Defects and Reproductive Harm - www.P65Warnings.ca.gov

See warning statements on pages N7, N8 and below.

DESIGNED FOR TWO-STEP RESPONSE:

Step 1: Evaluation and cleanup of battery

Step 2: Removal and disposal

PIG LITHIUM BATTERY ABSORBENT MAT

Specially designed to safely absorb lithium-ion battery electrolyte.

Mat is specially treated to quickly absorb lithium-ion battery electrolyte for faster, easier cleanups and safer workplaces. It's chemical resistant and won't degrade or cause a dangerous reaction upon contact with lithium-ion battery electrolyte spills. Recommended to keep on hand during the manufacturing process of lithium-ion cells and batteries. PIG Mat won't rip, tear or fray, even when saturated, and it lasts 2x longer than competitive mats.

EXCLUSIVE PIG PRODUCT

	MAT3100	14.75"x 50'	1 roll	2.2 gal./box	**120**	**$59**	**$56**

NOTE: PIG Lithium Battery Absorbent Mat has been rigorously tested in a controlled laboratory setting and has been found suitable for absorbing electrolytes used in many common lithium-ion cells and batteries. However, due to the wide variety of electrolyte chemistries used in batteries available on the market, some of which are proprietary and not available to New Pig Corporation, New Pig Corporation does not guarantee that this product is compatible and can be used with every electrolyte formulation. Prior to using this product, end users of this product are responsible for verifying the suitability of polypropylene absorbent mats and surfactants with their specific battery manufacturer, or the manufacturer of the device which contains the battery.

WIP452

PIG SHOPREADY MICROFIBER WIPERS

ShopReady Wipers now come in larger sizes or on a roll!

When you hear microfiber, you probably think of cleaning, polishing and other light-duty tasks. That's about to change! Our ShopReady wipers are ideal for wiping unfinished cast iron, gears, burred edges, and other rough surfaces.

ShopReady wipers won't bleed out or contaminate clean surfaces, whether you're using them wet or dry. They feature exact cut edges to eliminate fraying, shedding and unraveling, plus they're more durable, lower linting and have better retention compared to red shop towels.

Pop-up boxes provide easy dispensing and storage while perforated rolls allow you to customize sizes. Available in four colors for color-coding different processes at your facility.

PIG502

PIG UV-RESISTANT ABSORBENT SOCK

Direct sunlight and mildew are no problem for these absorbent socks.

Flexible socks absorb leaks, drips and condensation from under freezers, coolers and equipment and they help contain growhouse/greenhouse watering messes. 100% polypropylene filler and skin resist the growth of mildew, plus the skin resists UV rays for up to one year. When absorbing water, socks can be air-dried and reused 1–3 times.

Clip-&-Fit version allows you to customize the length of your sock by clipping ends with included cable ties and cutting the material to size.

MAT2900 (folded)

MAT2900–MAT2902 are scored to make them easy to fold (underside of mat shown).

MAT2905

PIG UV-RESISTANT ABSORBENT MAT

Absorb liquids over long periods, even in direct sunlight.

Black top layer resists UV rays for up to one year so you can use near windows, on fuel islands, in greenhouses, indoor grow operations and more. Absorbs common industrial liquids including oils, coolants, water and more, and can be left down long-term without growing mildew. MAT2900–MAT2902 are scored on the underside for easy folding; fold to the thickness and width needed for extra targeted absorbency.

PIG ABSORBENT FLAT MOP

Mop your floors using PIG Mat with an all-in-one bundle.

Mop cleans underneath machines and other hard-to-reach places. Aluminum construction has a 360° swivel head with lockout tab and 71" telescoping extension handle. Mop base is 18" wide with riveted hook-and-loop strips to keep the absorbent in place.

Your choice of precut pads or pull-and-tear rolls. Rolls are available in Universal or Oil-Only; Pads come in Universal, Oil-Only or Thick Liquids (for paints, resins, syrups and varnishes). Absorbent refills sold separately.

PIG FLOOR SWEEPING COMPOUND

Control dust while sweeping hard floor surfaces.

- Oil base with grit: Made from ground softwood, screened sand and extra oil for a gritty texture that adds cleaning power and traction; for use on floors that will not be damaged by oil
- Oil base without grit: Lightweight formula made from ground softwood and oil to control dust and debris without added abrasion; for use on concrete and finished floors that will not be damaged by oil
- Wax base: Ideal for finished or fine floors where oil-based products can't be used; made from ground softwood and carefully selected waxes with no oil or grit
- Bio-based: Environmentally safe with softwood shavings is suitable for all hard floor surfaces; green color

SKM4221

PIG COOLANT SKIMMING PAD

Remove damaging oil from coolant.

Pad floats in tank at coolant level and skims tramp oil off to extend coolant life, saving money on disposal and costly replacement. Durable quilted design absorbs oil but not water and it won't sink, even with soaps or detergents present.

PIG® Coolant Skimming Pad

Weight	Item #	Size (W x L)	Unit (pads)	Abs. Up To	Pallet Qty.	1+

	SKM4220		10	0.56 gal./box	**36**	**$83**

HOOFTRAX ADHESIVE-BACKED RUNNERS

Add traction in wet areas where absorbency is not needed.

Keeping floors dry isn't always part of your gameplan, but that doesn't mean you have to sacrifice floor safety. PIG HoofTrax Runners are the perfect non-absorbent solution for wet areas that just need traction.

Anti-slip properties provide remediation for floors that are otherwise potential slip hazards. Peel-and-stick application adheres to ceramic tile, laminate, marble, sealed stone and more. Vinyl runners are easy to clean with mops and floor scrubbers, and when it's time to replace them, they peel up with little to no residue left behind. They're ADA compliant for walkers and wheelchairs, ASTM tested to be Extremely Low Slip Risk. Product life is up to 9 to 12 months, depending on traffic and conditions.

Which HoofTrax Runner is best for your application?
Learn more about each texture here and on the next page.

CHOOSE THE TRACTION YOU NEED

Sand Texture
Non-abrasive, gritty surface provides the highest level of traction.

Pebble Texture
Heavily embossed for safer footing in almost any setting, indoors or out.

Fine Texture
Lightly embossed for added traction on slick, smooth or polished floors.

PIG HOOFTRAX RUNNER - SAND TEXTURE

Add traction in continuously wet areas where absorbency is not needed or permitted. Crystal clear properties help you meet cleaning, sanitizing and hygiene standards, making it easy to inspect for dirt and the growth of mold or bacteria. Sand Texture surface is gritty, but non-abrasive, to help create safer footing around food processing, kitchens, air blades, breezeways, freezers and coolers. UV-resistant for indoor/outdoor use where wet conditions are prevalent.

TOP CHOICE!

FLM6200
Crystal Clear

PIG® HoofTrax™ Adhesive-Backed Runner - Sand Texture

Item #	Size	Color	1-2	3-6	7+
FLM6200	27"W x 50'L	Crystal Clear	**$335**	**$330**	**$325**
	27"W x 5'L		**$95**	**$92**	**$90**

PIG HOOFTRAX RUNNER - PEBBLE TEXTURE

Pebble Texture surface is heavily embossed to help create safer footing at pools, gyms, ramps and other general-purpose applications. UV-resistant for indoor/outdoor use where dampness and light splashes are common.

FLM6100 • Black

FLM6100 • Clear

FLM6100 • White

PIG® Hooftrax™ Adhesive-Backed Runner - Pebble Texture

(Specify Color: Black Clear White)

Item #	Size	Color	1-2	3-6	7+
FLM6100	27"W x 50'L	Clear, White or Black	**$275**	**$270**	**$265**
	27"W x 5'L		**$85**	**$80**	**$76**
	6"W x 50'L		**$80**	**$76**	**$70**

Notice: The adhesive on this product is not appropriate for VCT, linoleum or peel-and-stick tiles.

PIG HOOFTRAX RUNNER - FINE TEXTURE

Same properties as FLM6100 (above) but with less aggressive texturing to maintain aesthetics. Fine Texture surface is lightly embossed to help create safer footing on smooth, polished, or overly slick floors in hotels, hospitals, care facilities and more. Ideal for indoor use where dampness and light splashes are common.

FLM6000
White

PIG® HoofTrax™ Adhesive-Backed Runner - Fine Texture

(Specify Color: Clear White)

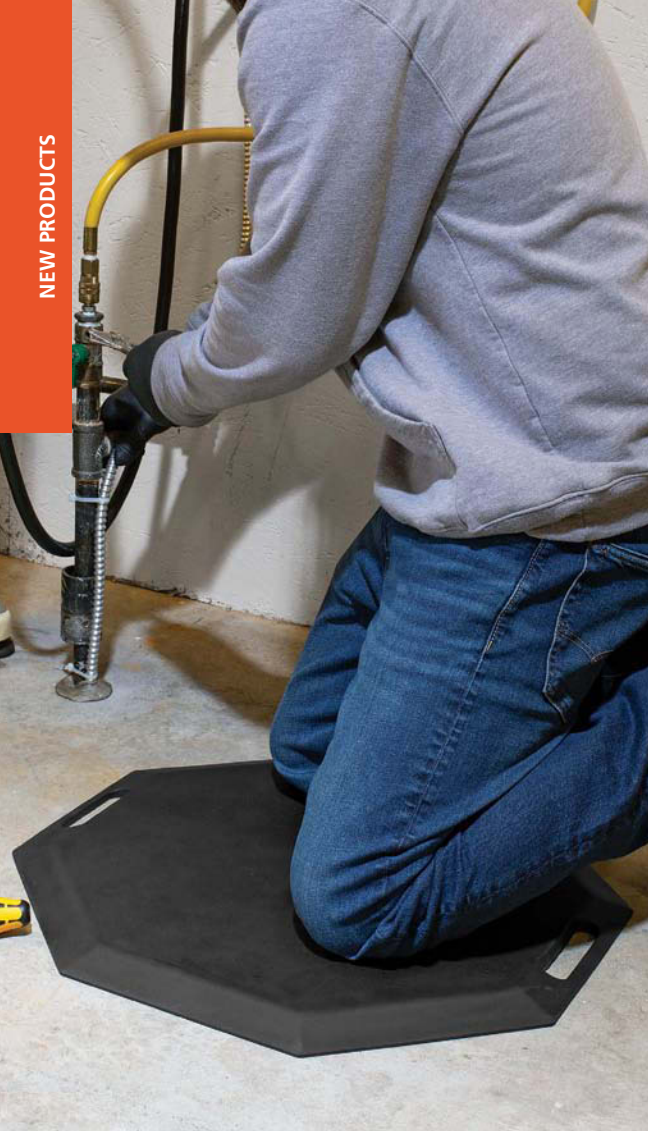
	27"W x 5'L		**$75**	**$70**	**$66**

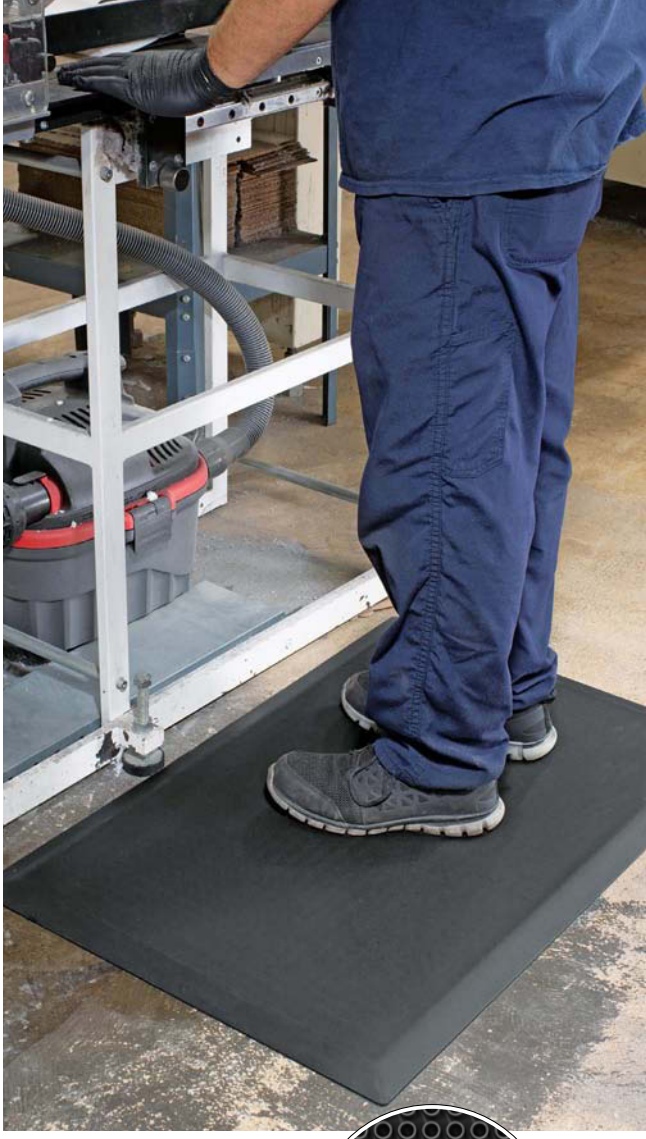
Notice: The adhesive on this product is not appropriate for VCT, linoleum or peel-and-stick tiles.

NEED TRACTION AND ABSORBENCY? CHECK OUT GRIPPY MAT AT NEWPIG.COM

New Pig Adhesive-Backed Mat Notice: New Pig Adhesive-Backed Mats are formulated to work with most common hard-floor surfaces. New Pig Adhesive-Backed Mats are not intended for use on wood flooring with stains, finishes, or coatings. New Pig Adhesive-Backed Mats have non-permeable barrier layers to prevent liquid pass-through & as such, are considered to be non-breathable & may not be suitable for use on surfaces that require air curing, including, but not limited to, newly poured concrete or recently applied coatings, sealants & finishes. All adhesive mats have some potential to leave residue, lift and/or discolor 1) surface finish, 2) surface coating, 3) paint, 4) loose or pre-damaged tiles. For these reasons & others, if you have questions about the suitability of New Pig Adhesive-Backed Mats for your application, test a small section of mat in a discreet or non-critical area before using on larger areas. New Pig Adhesive-Backed Mats are designed for use for up to 3–6 months in commercial and general public environments, depending on conditions & traffic patterns. Regardless, New Pig Adhesive-Backed Mats should be replaced immediately if they show signs of wear or damage & should always be replaced in commercial and general public environments no later than 6 months after installation.

CUSTOMER ASSUMES THE RISK THAT A NEW PIG ADHESIVE-BACKED MAT MAY DAMAGE OR ALTER CUSTOMER'S EXISTING FLOORING OR FLOOR COVERING. NEW PIG PROVIDES NO WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE & NO WARRANTY THAT THE USE OF AN ADHESIVE-BACKED MAT WILL BE ACCEPTABLE FOR USE ON CUSTOMER'S FLOORING OR ANY OTHER SURFACE. NEW PIG SHALL HAVE NO RESPONSIBILITY FOR & CUSTOMER HEREBY RELEASES & DISCHARGES NEW PIG FROM ANY DIRECT, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES TO OR RELATED TO CUSTOMER'S FLOORS, FLOORING MATERIAL, OR ANY OTHER SURFACES IN CUSTOMER'S DWELLING OR FACILITY. CUSTOMER IS SOLELY RESPONSIBLE FOR DETERMINING THE FITNESS & APPROPRIATENESS OF THE USE OF A NEW PIG ADHESIVE-BACKED MAT IN CUSTOMER'S DWELLING OR FACILITY.

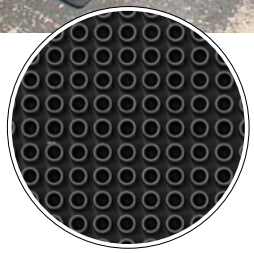




PIG ALLEVIATE ANTI-FATIGUE MAT

The perfect mix of cushion and support.

Constructed of SBR (Styrene-butadiene rubber) with patented technology that's optimized between cushioning and support. SBR provides a stable surface that, unlike foam or gel, gets softer as it's compressed, resists bottoming out and returns energy to the worker. Molded, beveled edges won't curl and closed-cell design won't absorb liquids or trap odors. Ideal for commercial and industrial applications such as manufacturing, warehouses and more.



Alleviate cells on underside of mat

PIG® Alleviate Anti-Fatigue Mat		
Item #	Dimensions	1+
FLM4000	3'W x 5'L x 0.5"H	**$250**
	2'W x 3'L x 0.5"H	**$100**
	22" Dia. x 0.5"H	**$70**

PIG ALLEVIATE GREASE-RESISTANT ANTI-FATIGUE MAT

Stand safely and comfortably, even around grease and oil.

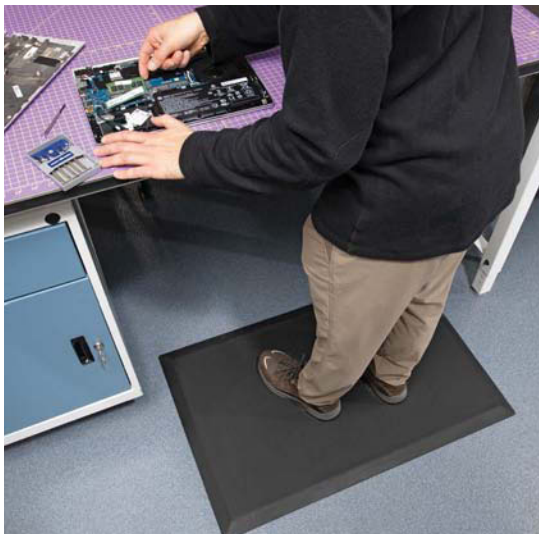
Nitrile rubber (NBR) resists oil and fuel which is ideal for commercial applications like automotive, aerospace and others. Patented technology cushions, supports, gets softer as it's compressed, resists bottoming out and returns energy to the worker. Foam and gel can't do that!

PIG® Alleviate Grease-Resistant Anti-Fatigue Mat		
Item #	Dimensions	1+
FLM4001	3'W x 5'L x 0.5"H	$430
	2'W x 3'L x 0.5"H	$175
	22" Dia. x 0.5"H	$95

PIG ALLEVIATE ESD ANTI-FATIGUE MAT

Cushioned mat prevents electrostatic discharge.

Protects electronic products from damage by an electrostatic charge; static dissipative up to 10^6 ohms and comes with ground wire. SBR (Styrene-butadiene rubber) gets softer as it's compressed, resists bottoming out and returns energy to the worker. Features molded, beveled edges that won't curl and closed-cell design that doesn't absorb liquids or trap odors.



PIG® Alleviate ESD Anti-Fatigue Mat		
Item #	Dimensions	1+
FLM4002	3'W x 5'L x 0.5"H	$390
	2'W x 3'L x 0.5"H	$130
	22" Dia. x 0.5"H	$90

PIG ALLEVIATE ANTIMICROBIAL ANTI-FATIGUE MAT

Antimicrobial mat offers cleanliness and comfort.

100% nonporous EPDM rubber with antimicrobial additive resists compression set, heat, ozone, weathering and a wide range of chemicals including acids, alkalis and glycols. Smooth surface is easy to clean and is autoclavable up to 300°F so it's great for healthcare workspaces.

PIG® Alleviate Anti-Microbial Anti-Fatigue Mat		
(Specify Color: Black Blue)		
Item #	Dimensions	1+
FLM4003	3'W x 5'L x 0.5"H	$380
	2'W x 3'L x 0.5"H	$130
	22" Dia. x 0.5"H	$90

MIGHTY LINE FLOOR TAPE

The most durable floor tape on the market.

Seven times thicker than average floor tapes; made from 50 mil PVC that resists abrasion, chemicals and wear. Ultra-tacky, heavy coat-weight adhesive backing stays in place with strong hold but leaves minimal residue behind. Well-suited for high-traffic areas, including from forklifts, industrial traffic and floor cleaning machines.

For the complete details of each tape, visit newpig.com.

VIKAN METAL DETECTABLE TOOLS

Tools are easy to find if they fall into consumer materials.

Semi-ferrous additive allows for use in conjunction with a metal detectable system to detect lost tools, chips or pieces of tools that make their way into consumer materials. Metal-detectable, FDA-compliant plastic is a lightweight and less costly alternative to stainless steel.

SURECAN FUEL CANS

Fuel machinery with cans that are full of unique features.

FM approved, Type II safety cans help you comply with OSHA standards when storing and dispensing fuels. Flexible nozzle rotates more than 180° to make filling easier in awkward locations. Thumb trigger makes it easy to control flow and minimize spillage, and the can self-vents when the thumb trigger is used. Self-closing safety fill cap and flame mitigation device in fill neck help prevent spills, fires and explosions. Replacement parts sold separately.

OILSAFE PISTOL GRIP GREASE GUNS

For one-handed operation in high-volume greasing.

Super strong pistol grip handle is designed to prevent pinching. Color-coding ensures correct grease is applied to correct equipment; great for 5S systems.

Steel Body stands up to hard daily use in heavy industrial environments; Clear Body provides visibility of grease level. Cold Weather models can be used in all weather, including very cold conditions. Unique adjustable-stroke mechanism enables easy switching between high pressure for cold weather and high volume for faster greasing.

IBC154

VESTIL IBC TILT STANDS

These stands tilt to completely empty liquid from IBC totes.

Stands provide a secure way to tilt IBC containers for thorough draining. Built-in spring lifts the platform as liquid is drained from the container, and raised corner guards help to secure the tote.

Models with forklift pockets make it easier to move the stand (move unloaded only). Models with adjustable legs allow you to adjust the height of the stand for less bending. Stainless steel versions can be used with corrosives and they're easy to clean. Mobile stand has wheels and an ergonomic handle so you can move it around your facility with ease.

IBC ACCESSORIES

We've got all the right stuff for your IBC tote.

Wouldn't it be nice if there were products to make IBCs more convenient to work with? Well, you're in the right place! We have a range of parts and accessories to complement your IBC. For the complete details of each product, see the ordering information to the right and visit newpig.com.

IBC Accessories	
Item #	1+
IBC500 • 6" Vented IBC Tote Cap	**$13.40**
IBC501 • 6" HDPE Buttress IBC Tote Fill Cap	**$22**
IBC502 • 6" IBC Tote Fill Cap with Two NPT Plugs	**$21**
IBC503 • 6" Poly IBC Tote Fill Cap with NPS Opening	**$9.30**
IBC507 • Poly IBC Tote Adapter w/Hose Thread 2" Camlock Female Coupler • 3/4" NPT Male Hose Thread	**$42**
IBC508 • Long Poly IBC Tote Adapter for NPT Valves 2" Female NPT • 2" Male Quick Disconnect • Ext. Dia. 2"	**$15.50**
IBC509 • Poly IBC Tote Adapter for NPT Valves • 2" Short Female NPT • 2" Male Quick Disconnect • Ext. Dia. 2"	**$4.20**
IBC506 • IBC Tote Camlock Dust Cover • Ext. Dia. 2"	**$8.25**

IBC160

ZEELINE AIR-OPERATED IBC TOTE PUMP SYSTEM

Quickly pump high viscosity oils from your IBC tote.

3:1 ratio oil transfer pump for medium to high viscosity fluids is ideal for short to medium distance applications. Works with 275-gallon IBCs and can be used with SAE 130 oils and fluids including motor oil, gear oil, hydraulic oil, synthetic hydraulic oil and transmission fluid. Accuracy rating of +/- 0.5% with a clear view LCD. 50' x 0.5" diameter hose has a maximum pressure of 2,320 PSI, allowing for maximum delivery of petroleum-based hydraulic fluids.

IBC160

Zeeline Air-Operated IBC Tote Pump System	
Item #	1+
IBC160 • Compatible with Motor Oil, Waste Oil, ATF • 130 wt. Max Viscosity 6.6 gal./minute Max Flow Rate • Use with 275 gal. IBC w/ 2" NPT Bung	**$2550**

Flammables Warning: Not for use with flammables (f.p.<141°F/60.5°C).

VESTIL PALLET TRUCK

Move a wider range of heavy loads with this pallet truck.

Hydraulic fingertip hand-pump lever makes lifting and lowering easy and offers a three-position hand control for raising, lowering and neutral. Adjustable-width forks lift a wider range of objects while the spring-loaded handle automatically returns to upright position. Accepts up to 4,400 lbs. on 6.25" polyurethane casters; wheels feature sealed bearings.

MTL664

Vestil™ Pallet Truck	
Item #	1+
MTL664 • 29"W x 62"L x 48"H • 4400 lb. Load Capacity	**$1000** *

PIG CA-COMPLIANT AEROSOL CAN RECYCLER

Puncture aerosol cans in compliance with CA regs.

Easily puncture aerosol cans and render them exempt from haz waste regs when properly emptied. Unit mounts into 2" bung on a 30- or 55-gallon closed-head steel drum to collect residual liquids; works with domed mini, standard and jumbo cans. Complies with California's rigorous vapor emission regulations; includes can counter, drum cover and containment tray.

Combination coalescing/carbon filter captures odors and harmful VOCs. Filter life is three months and timestrip indicator eliminates the guesswork of changeouts. One filter included with recycling system; replacements sold separately.

Repair kit (sold separately) contains all parts needed for routine maintenance: replacement gaskets, puncturing pins and installation hardware.

DRM4201

PIG® CA-Compliant Aerosol Single-Can Recycler		
Item #	1+	
DRM4201	**$1284**	
DRM4201 Contents • 1 Puncture Unit • 1 Safety Goggles • 1 Instruction Sign • 1 Combination Filter • 1 Grounding Wire • 1 Drum Cover/Under Containment • 1 Counter		
Item #	1-3	4+
DRM1265 • Combination Coalescing/Carbon Filter • 1 each	**$342**	**$268**
DRM4202 • Repair Kit • 1 each	**$53**	
DRM4202 Contents • 1 Puncture Pin • 1 Puncturing Unit Seat Gasket • 1 Backflow Preventer Gasket • 2 Backflow Preventer Washers • 1 Backflow Preventer Bolt • 3 Seat Assembly Bolts		

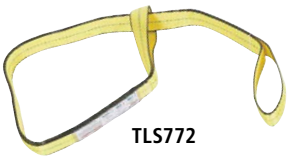
NOTE: Always operate system outdoors or in a well-ventilated area.

VESTIL HITCH-MOUNTED JIB CRANE AND LIFTING SLINGS

Conveniently lift stormwater grates and other heavy objects.

Jib crane easily mounts in standard Class III or higher 2" receivers; installation and use require no modifications to receiver or truck. Includes manual hand brake winch with cable and lifting hook for safe transporting. Crane may be installed on either side of truck and offset design allows for full use of tailgate while winch is in operation.

Lifting slings can be used choker style, or use them basket style and double the capacity. The smooth design offers a limited amount of abrasion when lifting, and they meet ANSI standard B30.9 requirement. Two different widths available.



TLS772

TLS770 and TLS771

Vestil™ Hitch-Mounted Jib Crane	
Item #	1+
TLS770 • 19.81"W x 44.5"L • 600 lb. Weight Capacity	**$855** *
Vestil™ Lifting Slings	
Item #	1+
TLS771 • 1"W x 6'L • Weight Capacity: Basket - 6,400 lbs., Choker - 2,560 lbs., Vertical - 3,200 lbs.	**$24** *
TLS772 • 2"W x 6'L • Weight Capacity: Basket - 12,800 lbs., Choker - 5,120 lbs., Vertical - 6,400 lbs.	**$39** *
